Escalator Spare Parts

ABOUT

The availability of escalators and moving walkways, particularly in older systems, are closely linked to the availability of the necessary spare parts. In order for your conveyor system to be used quickly, you will not have to wait several months for a major overhaul, we store the most parts in a 6-month stock level. We can change the parts in 24 hours.

Escalator Handrail

Handrail Cover Rubber

SBR:

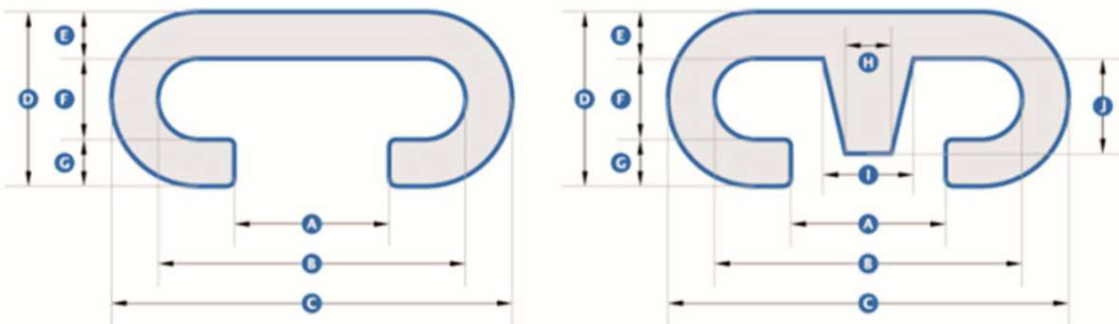

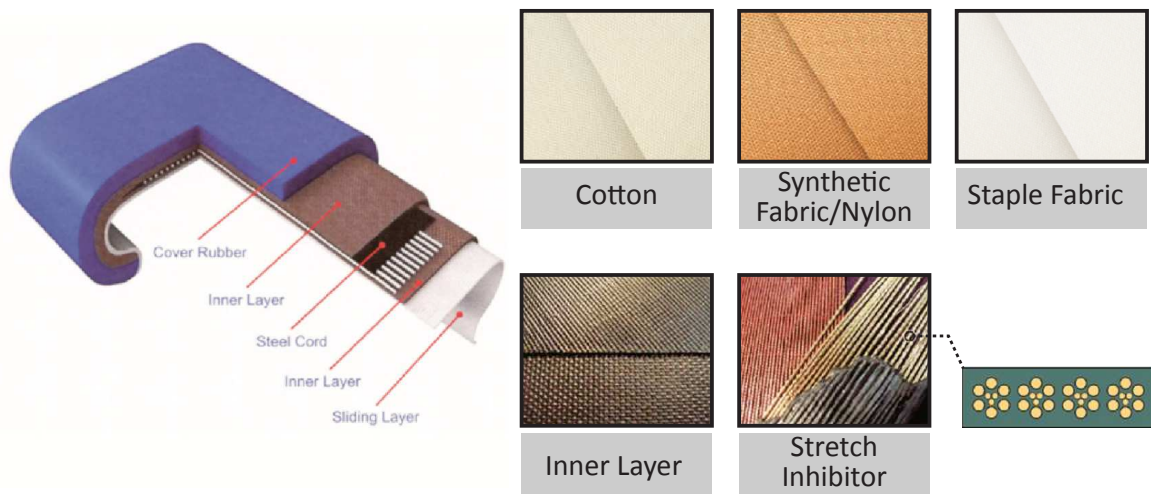

Main component: Styrene Butadiene Rubber
 Better Performance than natural rubber on:
 Anti high Temperature
 Oil Resistance
 Aging Resistance
 Low variation on hardness after vulcanization

CSM:

Main component: Chlorosulphonated Polyethylene
 Glossy: shiny Surface with a long Durability
 High Resistance against:
 UV-Light
 Ozone Concentration
 High Temperature
 Indirect Exposure to Sunlight
 No antiaging Waxes
